

Audi OEM Wheels

[Email me](#)

Note: I am not a dealer, retailer, nor distributor. I'm merely an individual consumer who made a public wheel page after a frustrating experience searching for this information on the net.

Wheel info legend:

- Car Model
- Wheel & Tire Size
- Color Code (see [decoder](#) at end of page)
- Part Number (dates indicate that P/N changed)
- Model
- Audi Retail Price
- Center Cap P/N

- When ordering center caps, also specify the wheel model (ie PR-C2R) as this will determine the color.
- All wheels are 5x112 bolt pattern unless otherwise indicated.
- The information comes from ETKA which is VAG's electronic parts catalog.
- This [PDF Brochure](#) from Otto Fuchs shows which Audi wheels are forged. Their [website](#) contains additional wheels that they make for Audi (and other brands).
- [This](#) is my preferred online calculator for comparing wheel offsets.
- **No guarantees are made of the accuracy of the information.** Please let me know if you find incorrect information. I can add wheels to the list as well.
